- All 7-12 Students are required to take Choir and encouraged to take Band.....5-6 graders are strongly encouraged to take band class.
- K through 4th grades will teach their own music and PE classes.

*Business Math is a practical math class that will be offered in Paces. The students will work at their own pace and check in with Mrs. Morris as they need to take tests and grade their work. They will need to finish the 12 paces that are required for the year's worth of credit. Austin, Eric, Jonathan, Kelly take Business Math first Hr. They have a little freedom but will lose it if they abuse it.

**Students will also have the opportunity to join a special Computer Class that will meet during the Lunch period on Tuesdays and Thursdays. This class will focus on basic computer skills. This is a graded class and students will also earn credits for participating in this class.

*** There will a Art and Graphics Design Club after school 2 days a week from 3:45-4:45 (Tuesdays and Thursdays) which the students will help produce the school paper and work on a digital yearbook and participate in art projects. They will learn many art and computer skills during this time. There could be some additional costs associated with this class for art supplies ect....but we will try it keep it to a very minimum. This will be graded class and students will earn credits toward their HS transcript.
